

Bethwel Raore – BIO

Dr. Raore is a neurosurgeon at Neurosurgery & Spine Associates at Gwinnett Medical Center with expertise in neurosurgical oncology, brain and spine trauma and complex spine surgery. He received his medical degree from Creighton University in Omaha, Nebraska and completed his internship and neurological surgery residency at Emory University in Atlanta, Georgia.

Dr. Raore completed further training in Skull Base and Cerebrovascular Neurosurgery at the Arkansas Neuroscience Institute in Little Rock, Arkansas. He also completed a research fellowship in spinal cord therapeutics delivery, leading to an FDA approval for the first U.S. study of intraspinal stem cell transplantation in Lou Gehrig's disease. He has published numerous articles in various disciplines within Neuroscience.

He was an assistant professor at the Clinical Neuroscience Institute for Wright State University in Dayton, Ohio. He has been inducted to the Gold Humanism Honor Society for demonstrated excellence in clinical care, leadership, compassion, and dedication to service.

Dr. Raore is passionate about providing care, stays involved in international medical missions, enjoys spending time with his family and participating in team sports.
